WASTE DISPOSAL REQUEST  
for  
Non-Municipal Waste

Federal, State and local regulations require municipal solid waste landfill facilities (MSWLF) to implement a program to prevent the disposal of regulated materials. The following is a partial list of non-municipal waste materials that cannot be accepted for land disposal at Los Reales Landfill. If you have any of these materials, call the landfill at 520-791-4183. They may be able to provide other disposal options.

Non-residential hazardous waste  
Non-residential bio-hazardous medical waste  
Non-residential discarded drugs or from a home collection event  
Regulated radioactive waste, including Tritium signs  
Regulated PCB's  
Universal Wastes (waste oil, lead acid batteries, mercury containing units, TV's, monitors)  
Compressed gas cylinders/containers  
Refrigeration type appliances\*  
Friable asbestos  
Bulk liquids  
Motor vehicles  
Tires\*

\* Can be dropped off for recycling. Fees apply.

Other non-municipal wastes generated through an industrial/manufacturing/business process or from a remediation/clean-up may qualify for disposal at Los Reales Landfill, but first must undergo a characterization, using process knowledge and/or proper sample analyses based on EPA approved guidelines. Additionally, the State of Arizona regulates petroleum contaminated soil (PCS) and auto shredder fluff (ASF) under the "Special Waste" regulations found in the Arizona Administrative Code Title 18, Chapters 13, Articles 13 and 16. PCS and ASF must be characterized properly to determine what regulatory disposal regulations apply.

The attached "Waste Disposal Request" form is to be submitted to Los Reales Landfill when requesting disposal of these non-municipal wastes. Send the completed and signed "Waste Disposal Request" form by email to [WasteDisposal@tucsonaz.gov](mailto:WasteDisposal@tucsonaz.gov). If you have any questions regarding our acceptance process, please contact the Waste Acceptance Coordinator at 520-791-4183 or by email [WasteDisposal@tucsonaz.gov](mailto:WasteDisposal@tucsonaz.gov).

**Disposal of the waste cannot take place unless written approval by the Los Reales Landfill has been granted to the generator or their designated representative.**

**Once the waste is approved for disposal, a signed approval form will be emailed to the original sender of the application.**

COULD THIS WASTE POTENTIALLY CREATE DUST DURING DISPOSAL?  YES  NO

#### CERTIFICATIONS

If samples were collected and analyzed: I hereby certify the samples collected to characterize the waste are representative of the waste being offered for disposal and were analyzed in accordance with U.S. EPA 40 CFR 261.20(c) guidelines or equivalent rules.

If the waste was treated so it is no longer a hazardous waste: I hereby certify I am in compliance with all applicable LDR regulations as defined in 40 CFR 268.

I further hereby certify that, to the best of my knowledge and belief, the information contained herein is a true, complete and accurate description of the waste material being offered for disposal and all known suspected hazards have been disclosed. If any Material Data Safety Sheets were submitted, they are truthful, complete and are representative of the waste or contaminant in the waste.

By using this profile, neither I, nor any other employee of the company, will deliver for disposal or attempt to deliver for disposal any waste which is classified as toxic, hazardous or infectious, or any other waste this facility is prohibited from accepting by law. I shall immediately give written notice of any changes or conditions pertaining to the waste not included herein. Our company hereby agrees to fully indemnify this disposal facility against any damages, fines or penalties resulting from this certification being inaccurate or untrue.

I further certify the company has not altered the form or content of this profile sheet as provided by the City of Tucson.
